Re: Western States Mining - Drum Mine Site Discovery Visit

Dear Dan:

Enclosed with this letter please find the following materials that Western States obtained during its discovery visit to the Drum Mine Site on September 15, 1997. I apologize for the delay; we have only just received analytical results.

Included as enclosures to this letter are:

1. Photographs taken of the site. I took these photographs myself, and tried to cover the entire site;
2. A videotape taken contemporaneously with our site visit. Al Cerny made this videotape; and
3. Results of the analysis of samples that we took during our discovery visit.
